

MONAGHAN PPN – VISION FOR COMMUNITY WELLBEING

*****Note:** *This Vision is what the PPN member groups want to see achieved in County Monaghan. It is not how things are right now, but it is what we are working towards achieving. ****

Indexed version for PPN Representatives and Secretariat

The 6 wellbeing headings are presented in alphabetical order here to facilitate searching of the Vision. No heading is more important than any other, and all are interconnected.

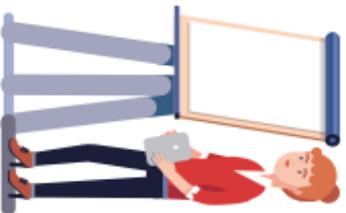

The Vision is a high level, aspirational document, but nonetheless provides clear guidance on what member groups wish to see achieved in Monaghan and how. It is particularly worth noting the strong threads of inclusion, equality of access and opportunity, etc. that indicate how PPN members groups wish to see their community. It would not be possible to know or address every issue that will arise but the Vision does give clear direction for representatives and the Secretariat.

Remember that the Vision will be reviewed at regular intervals. Member groups will become increasingly familiar with the Vision as it is consistently used as the reference guide by the PPN and its representatives, as well as becoming more widely known about (in the Local Authority, other agencies and publicly). As a result, community groups will be keen for it to comprehensively address all the issues they feel are vital to achieve community wellbeing and so the Vision will evolve, possibly becoming more extensive, consistent and specific.

In addition to the Vision itself, the MD consultations (workshops and online inputs) generated a range of more detailed and specific goals. A record of these was kept and is available to PPN reps for reference. Please remember that there is not a consensus of support on each of these as the Vision is at a more general overview level, and also that there will be many more detailed goals and objectives amongst the PPN member groups which were not captured.

The Monaghan PPN Vision for Community Wellbeing

How did we create this Wellbeing Vision?

1

Workshop

PPN Members were invited to attend Community Wellbeing workshops.

At these workshops the Community Wellbeing concept was presented.

2

Asset Mapping

Working in groups, attendees then highlighted the “assets” and aspects of their community

that they wish to preserve and protect for current and future generations.

3

Wellbeing vision

Using the 6 Community Wellbeing headings, attendees shared what they (and the organisations they work for) considered to be important for their community’s wellbeing.

4

Consultation

Following the workshop, an online consultation was shared with members who were unable to attend the workshops.

They were provided the opportunity to answer the same questions asked at the workshop.

5

Draft Vision

The PPN resource workers and secretariat members then analysed the responses from the workshop and online consultation.

They then produced the draft wellbeing statements.

Health (physical & mental)

How can all members of our community enjoy the best possible physical and mental health? What about people with special needs, older people, and carers?

Environment & Sustainability

How do we value our natural environment and man-made heritage? What can be done to conserve, protect and restore these? How can we **interact with the environment in a sustainable way**, and hand it on to the next generation in a better state?

Values, Culture & Meaning

What is needed to ensure that everyone feels, and actually is, included and valued, and that our different values and cultures are respected and nurtured? What are the important parts of our culture that we want to hand on to future generations?

Economy & Resources

How can our communities thrive economically, with good jobs, and supports for enterprise, business and for people not in work? What resources do we have and are they used effectively without causing harm to social and environmental sustainability?

Social & Community Development

How can we be an inclusive community where we support each other and ensure no one is left out? What are the important social services and facilities we need to live well from childhood to old age?

Participation, Democracy & Good Governance

What is necessary to ensure that our local government structures support the wellbeing of our community for this and future generations? What is necessary to ensure that we have a voice in the decisions that affect us, and that all voices are being heard?
